

Portal 22 – Power of the Paradigm

**Discovering Paradigms are a Key to it all -
The Philosophical Field of Paradigms as
Space. Our main power comes from our
ability to change the course of our
Paradigm Shifts. This is our greatest
power. And it is free and nearly
untapped.**

Reflecting on **Pyranomics** and **Wholonomics** is the stuff of change, the most fundamental and powerful change we can make.

All experience is rooted in the invisible. **A paradigm shift** that is something anyone can make. When we can trace personal and social suffering back to the paradigm and also to Liberation we set the stage **to Liberate.**

This is certainly not welcome
to The Pyramid Powers.

**Creator and creativity that dissolve the
rigid?**

We beings of immense powers
and abilities?

We out of the bag, with so many miracles.
Mindsets and institutions made obsolete.
No longer power over, but power with.

And **to be made obsolete** is precisely what the **pyraparasites** do not want.

We have a **fight to Life through the soul of all of us.**

Everything in this human world is based upon a **core archetypal paradigm**, a primary template. This paradigm archetype is preventing the evolution of a new basis for human life. It cannot happen any more than you could build a computer made only of wood.

Just as the Copernican system with the sun at the center undid the Ptolamaic with the Earth at the center, so to we will overthrow the Pyranomic Apex bringing to center the Wholonomic Holopex.

Those who have been birthed into this world in slavery conditions, it cannot be easy to free your way out. Who on the outside is there to help? But, if enough of us in our own sovereign sacred way dissolve the slavery boundaries for everyone in every land and every way of life, we can find the way out for all. **We can if we Will.**

Through **Wholonomics** and what we catalyze and awake together, we can leverage for their freedom while reclaiming ours. When we take back our Power we can give them back their Power.

We want to liberate the **Power of all the slaves from a life that is based on illusion and falsity to one grounded in safety and security leading to ultimately breakthrough on all levels.**

Make no mistake. **Wholonomics** is threatening to every **Institution of the One Eye.**

If there is a command group we cannot see, then they ultimately control by controlling the Paradigm Space of science and art and every kind of social space.

**We as Being
Filter Transspatial, Transtemporal
Unity Consciousness
Through "Context",
our Paradigm Filter Frames.**

**Paradigms have a cosmic power
to filter and frame Consciousness
And then amplify what they
filter and frame.**

That which is **Beyond Form** is formalized through the filters of "Context".

Paradigms give form to the formless. These bring shape to the decision field of experience.

Wholonomics brings formless to form.

Paradigms like Consciousness can be likened to the light from a film projector. The projector shines light onto a screen, modifying the light so as to produce one of an infinity of possible images.

These images are the perceptions, sensations, dreams, memories, thoughts, and feelings that we experience, the forms arising in consciousness. The light itself without which no images would be possible is the ability of consciousness which is No-form to take on form, to be informed

Paradigms are the context of meaning. They operate like software behind the Scenes running the **forms and functions of our collective life.**

Paradigms are **Archetypes made of Space and philosophical models made of related perspectives.** Our patterns of living flow from there; **the channels through which our possibilities and our lives journey.**

**New space with new geometry
expresses new beauty in new ways,
to enable us to dance the new
dance that we want to dance.**

No part of human activity is outside the scope of the paradigm's influence.

It's as if our energies get poured through an **all-encompassing mold**. Then reduced to solidify into rigidity.

Or, our energies can open through a **New Worldview**.

We view through the mirror the paradigm gives us. Our choice of **collective Intelliware** is at stake here.

Paradigm Shift sweeping through human consciousness, a multi-dimensional movement in human affairs amplified into overdrive by the communications revolution, bypassing the controller's control systems.

We implement this **potentiating reformation** through all sectors of the mind and consciousness and human life, **modeling the Whole as the Whole dimensionally.**

Is our culture built on the foundations they are, working as well as is needed? Are we servants to a social system that binds our minds, that disperses our powers and changes us to be broken lost lonely unsatisfied holders of pain filled secrets
